Ben 10 reboot game pc

The best PC games have become so immersive and so detailed that your loved ones may not see you for a week or three when you dive in. They're so big that they'll not only stretch your imagination, but possibly your gaming PC too, challenging you with your gameplay, world-building and their gorgeous graphics. With all the visual magic from Nvidia's GeForce RTX 2080 Ti, Super RTX and AMD's Navi line, the best PC games can be experienced at a level of detail and resolution that was unheard of just a few years back. While there used to be only a few genres that were this groundbreaking, you can find amazing titles in just about any genre that will fulfill your game desires. You can take on your enemies in co-op PC games, face a whole new world in the best MMOs or MOBAs, or discover a brand new adventure in expansive open world games, just to name a few. For the best PC games you can play right now, we've compiled our top picks, including the best Steam games, so you can find your next adventure, no matter what form takes, to dive into. The best new PC game: Ghostrunner (Image credit: 505 Games) Ultra-violence and constant movement meet in this post-apocalyptic dystopian game. This FPP is not for the faint of heart - it's tense, exciting, and you'll probably die over and over again trying to beat it. If you ever wanted a game that came in equal parts Doom Eternal and The Mirror's Edge, you found it in Ghostrunner. The game is set in Dharma Tower, a kind of last refuge for humanity, where you ascend the tower through platformers and katana-induced carnage to take revenge on a ruthless ruler. You do it by cutting up your enemies, dodging bullets, and using a variety of unique abilities to continue making your way to the top. This is the kind of game that will leave you breathless just playing it. And if that sounds like your type of game, then you're in for a treat. The Witcher 3: Wild Hunt can only be one of the best video games of all time. (Image credit: CD Projekt Red) The Witcher 3: Wild Hunt is aging like good wine. Even several years after it hit the streets, it remains one of the most impressive open world games that has ever existed - mixing Skyrim's unapologetic scale with Grand Theft Auto V's incredible depth. It's such a packed game, which is why it claims the top spot on our list of the best PC games in 2020. Staggering, beautiful and an absolute time wash - in a good way - The Witcher 3: Wild Hunt is not only the best PC game of 2020 or among the best open world games on PC. It can only be one of the best video games of all time. Check out our list of the best single player PC games.2. Dark Souls 3Dark Souls 3 enhances everything you like about the Souls series by mixing it with elements found in Bloodborne. (Image credit: From Software) While it's arguably not as difficult as previous titles in the series, From Software's Dark Souls 3 takes everything you like about the Souls series and improves it by items found in Bloodborne, the developer's newer title for PS4. We won't sugar coat it: you're going to die in Dark Souls 3, maybe more than once. It takes patience to master its complex combat system, but it also plays fair, making it more accommodating for casual players, so they can also take part in their bleak, wonderful world. And on the bright side, it is much more optimized for PC than the first two games. Now that you can pick up Dark Souls: Remastered, and see where the apocalyptic series began, there has never been a better time to tie the first flame.3. ControlThere is nothing like control on the market. (Image credit: Remedy Entertainment/505 Games) It's not hard to see why Control has taken the gaming world by storm. The creative team at Remedy Entertainment made sure to pack this title with a lot to love, and were very attentive to the intricate details. A deeply cinematic game, this action adventure offers its players dizzying graphics, inspired environmental design and brilliant performances - not to mention, a deeply satisfying combat experience. Control places you in the skilled shoes of flaring hair Jesse Faden. You are tasked with seeking out The Oldest House, a building in New York City that is in a constant state of architectural flux and only appears to those who want to find it, and find your missing brother, all while leading the Federal Bureau of Control as director and overseeing the inclusion of paranormal units. There's nothing like Control on the market, and it makes it one of the best PC games to play right now.4. Microsoft Flight Simulator (Image Credit: Xbox Game Studios)Beyond its impeccable graphics and its excellent peripheral support, it won't take you long to realize that Microsoft Flight Simulator is a work of love. There is a lot of attention to detail here, as well as a level of realism and immersion you won't find anywhere else. So much so that if you are not a fan of flight simulations, you will start getting on the bandwagon. Although it also means that this game will not be for everyone. Nevertheless, if you are a flight sim fanatic or you love planes and flies, you will enjoy the chance to fly iconic vehicles in some of the most beautiful but dangerous places and conditions in the world. (Photo credit: Capcom) Monster Hunter is one of the biggest game series you've probably never heard of in years now. With Monster Hunter: World, the series broke into the mainstream and came to PC (much to many players' relief), and now it's one of the best PC games you can play to date. Monster Hunter: World puts you in the shoes of a monster hunter and you will hunt ever bigger and naughty monsters, strip them of parts, and create bigger, inferior armor. It's a cunning simple game loop one of the most compelling and rewarding PC games you can play right now. There is a relentless onslaught of content in this game, and Capcom, the developers of this monster hunt hit, are committed to bringing a wealth of free downloadable content to the game - as well as a new frosty expansion in Monster Hunter World: Iceborne. If you are looking for an addictive, immersive and most importantly, fun game to play on your own or with all your closest friends cooperatively, monster hunter: world is the PC game of your dreams. There is no doubt that it is one of the best PC games you can buy today. These are the best co-op PC games of 2020.6. Death Stranding(Image credit: 505 Games)If the name Norman Reedus is what got your attention when someone mentioned Death Stranding, well then you're in for a treat. But this game gets a lot of attention for more than just the big names associated with it, which incidentally includes Mads Mikkelsen and Léa Seydoux. As porter Sam Bridges, you bravely cross an apocalyptic United States to deliver valuable cargo, navigating land overrun by terrorists, bandits and these invisible creatures called Beached Things. This award-winning action game is a treat to all the senses too, thanks to its great story, which is reminiscent of the current pandemic, great gameplay, fun missions and impressive sound and graphics.7. Red Dead Redemption 2Red Dead Redemption 2 is a captivating western. (Photo credit: Rockstar Games) The latest release from Rockstar Games was an instant hit at the release. Red Dead Redemption 2 is a captivating western following Arthur Morgan and his gang as they try to survive a fictionalized Wild West as the outlaw on the run. But the game is much more than just that. Whether it gets lost in history, following through on each side the quest to its conclusion, or just bonding with your horse, RDR2 is one of those games where you can easily sink 50+ hours in and still have something to do. The game is amazing, and the graphics are gorgeous. You can even run the game in 8K, if you have the hardware. Definitely give this a look if you don't already have.8. Doom: EternalDoom: Eternal is a hell of a ride. (Photo credit: Bethesda Softworks) Doom: Eternal takes everything from the remastered Doom of 2016 and turns it up to 11. The game is intensely, visually and sonically overwhelming, and is exactly what you would expect a fever dream inspired by Doom would feel. The game is a seamless first-person shooter where you go into hell to fight against a variety of endless demons and reclaim an overrun earth. Replenishing your health sometimes literally requires tearing monsters apart, and there are some who need to be creative with your weapon choice, depending on which demon you face. But this game is about creating chaos and rushing into the match as high and as brash as possible. Not only is Doom: Eternal a hell of a ride (pun intended). It is also a lovely game that benefits from latest hardware. And there's a 2v1 multiplayer mode where a player takes control of the killer and meets two player-controlled demons.9. Half-Life: AlyxValve has graced us with what may be the most compelling reason to get a VR headset with Half-Life: Alyx. (Image credit: Valve) No game has been as expected as much or as long as Half-Life 3. So, as players have to wait a little longer for it, Valve has graced us with what may be the most compelling reason to get a VR headset with Half-Life: Alyx. Half-Life: Alyx is set 5 years before Half-Life 2. What starts as a rescue mission for the protagonist's father evolves into attempting to steal a superweapon from the alien overlord. From the interactive puzzles, the thoughtful struggle and the wonderful story, this precursor is a welcome dive back to the Half-Life world that has been universally praised for its quality. If you're looking for an excuse to get into VR games, this could be the one for you. Half-Life: Alyx's attention to detail shows what can be done with VR when taken seriously.10. Horizon Zero Dawn (Image credit: Guerrilla)When Horizon Zero Dawn hit PlayStation 4 in 2017, it was immediately hailed as one of the best games of the year. And with its recent release on PC, Guerrilla Games has brought this amazing game to a whole new audience. Although the game has technically been out for a few years, it is still absolutely gorgeous and can now benefit from higher end PC rigs for higher resolution and frame rates. The game follows Aloy in a post-apocalyptic world where she must fight robot dinosaurs and human cults while uncovering a narrative that is as exciting and complex as it is beautiful. While an open game with a female protagonist using a bow and arrow may be a little too reminiscent of Tomb Raider, Horizon Zero Dawn quickly leaves the comparisons for a unique and immersive experience.11. Forza Horizon 4Forza Horizon 4 brings racing to the UK. (Photo Credit: Microsoft) Microsoft's racing series only gets better with each release, and in many ways this spin-off has exceeded the main Forza Motorsport line as the best racing games on PC today. They are definitely funnier, adding a dash of arcade fun to the striking recreated cars and racetracks we've come to expect from Forza. Forza Horizon 4 is easily one of the best PC games you can buy today, and this entry brings racing to the UK after exploring America, France, Italy and Australia in the previous three installments of the franchise. Now you can tear through charming villages, seaside towns and the city of Edinburgh using many miles of country roads and dirt tracks in between. It's fast, frantic and a lot of fun. You can purchase Forza Horizon 4 through the Microsoft Store. It's also available as part of xbox game pass for PC, or you can buy the Xbox One version and get a pc download code using the Xbox Anywhere feature.12. Park merges the best of old school PC game design with modern technology. (Image credit: Terrible Toybox) Fans of classic point and click games like Monkey Island and Day of the Tentacle, which are some of the best PC games ever made, should add Thimbleweed Park to their must play list. Created by Ron Gilbert and Gary Winnick, two of the people behind the PC classics Monkey Island and Maniac Mansion, Thimbleweed Park plays as a love letter to classic point-and-click adventure games. From the amazing retro artwork, entertaining dialogue and confusing puzzles, Thimbleweed Park deserves its place on our list of the best PC games, merging the best of old school PC game design with modern technology. Thimbleweed Park (Limited Driving... 13. Sekiro: Shadows Die TwiceSekiro: Shadows Die Twice is a terribly difficult game to master. (Image credit: From Software) From Software is a household name when it comes to designing the best PC games. The thoughts behind the critically acclaimed Dark Souls series have transported PC players to some of the most abandoned landscapes and through some of the most challenging but rewarding gameplay. From Software is back on it again, with Sekiro: Shadows Die Twice. Sekiro places you in the shoes of the Young Wolf, a shinobi task of saving his young master. The game will take you through 16th-century Japan, but things will be eerie and supernatural: this is from the Software we're talking about. Don't expect a simple time of it, however. Sekiro: Shadows Die Twice is a very difficult game to master and you need quick reflexes to deflect enemy attacks, as well as to master stealth. You won't be able to hide behind a shield all day, as you were able to in Dark Souls III. Read: Is MMORPG on the brink of extinction?14. With MinecraftMinecraft, you can construct your own worlds using resources you find in nature. (Photo Credit: Microsoft) The phrase build it and they will come rings truer than ever with Minecraft, survival-based sandbox RPG which has now been bought more than 100 million times since its release in 2009. In it, you can construct your own worlds using resources you find in nature, or discover existing ones created by other players online. In Minecraft, you can either limit yourself to the many tools and blocks offered by the developer, Mojang, or you can install mods to really capitalize on your investment. Moreover, sometime in 2020, you will be able to take part in the Super Duper Graphics Pack, an optional piece of downloadable content that offers more realistic lighting effects and textures to an already amazing game.15. Sid Meier's Civilization VIWhat Sid Meier's Civilization VI has to offer is its massive scope. (Image credit: 2K Games) Sid Meier's Civilization VI is the latest installment in the iconic turn-based strategy game, and it's arguably among the best PC games you can play to date. One of the things that makes your PC the best for games on is the sheer breadth of different game genres game genres offers. And, what Civilization VI has to offer is its massive scope, despite the fact that it may seem slower pace next to the likes of Fortnite. Spread the empire across the map and crush your enemies. You build your empire from a simple settlement to a world power, and you can decide to do this through military power, technological superiority or cultural influence. Since its launch in 2016, it has had two expansion packs that really cement this game as an epic entry into our best PC game list. Civilization VI: Rise and Fall released in February 2018, with Civilization VI: Gathering Storm following in February 2019.16. Fortnite Battle RoyaleFortnite Battle Royale is actually a game mode for the Fortnite game. (Photo credit: Epic Games) Still among the biggest games in the world a few years after its release, Fortnite Battle Royale is a natural shoo-in for this list. After all, it is a global phenomenon and among the best PC games to play right now if you like super-competitive online games. This is a game people keep coming back to, and it's mainly because of its addictive gameplay and regular updates from Epic. Fortnite Battle Royale is actually a game mode for the Fortnite game, but this mode has become so popular, many consider it a separate game in itself. As with other Battle Royale games, the goal of Fortnite Battle Royale is to fight your way through an ever-shrinking map until you're the last player standing. Although it may sound simple enough, there is a lot of depth to this game when you start playing. Gabe Carey and Bill Thomas contributed to this article
